The PSC may subpoena from Lambda Therapeutics the Accord database materials it had sought from Accord, as the Court deems those materials relevant to the claims and defenses in this matter. The PSC's request that Accord produce foreign labeling materials is denied, as the PSC has not established a sufficient link between the Accord defendant in this case and purportedly related foreign Accord entities and Accord represents that it is not in possession of foreign labeling materials. The Court declines to extend any discovery deadlines at this point and directed the parties to discuss such deadlines after the District Judge determines the identity of the next bellwether plaintiff in October.

The next discovery/status conference will take place October 18, 2019 at 10:00 a.m.
