.....

PRETRIAL ORDER 30: ORDER RELATING TO THE UNITED STATES’ PRESERVATION OF SAMPLES

Upon consideration of the United States’ Motion for Entry of an Order Relating to the Preservation of Certain Physical Sample Materials and any opposition thereto, the Court hereby GRANTS the motion and ORDERS that the requirements of Paragraph 14 of Pretrial Order 1 are amended as follows:

1. For purposes of this Order, “Sample” shall mean any physical sample, including samples of oil, oil dispersant, soil, sand, water, air (whether ambient or breathing-zone), sediment, flora fauna, wastes, extracts of samples for analysis, and the containers and media in which they are held.

2. For purposes of this Order, the “Sample Retention Date” of a particular Sample shall mean the latest date on which that Sample, if preserved or extracted in accordance with standard scientific or laboratory practices, can be subjected to scientific analysis and yield reliable results in accordance with the prescribed method. Each Sample Retention Date will be determined by the custodial laboratory at the time of receipt of the Sample based upon the purpose for which the Sample was collected, the condition of the sample at the time of its collection, and the handling of the sample prior to its delivery to the laboratory. The Sample

Retention Date shall be the date that provides the maximum allowable holding time for such Sample in the relevant sampling plan or regulatory guide.

3. For purposes of this Order, “Information” shall have the meaning set forth in Pretrial Order 22, Paragraph 2 and any subsequent amendments or modifications to that Paragraph.

4. For purposes of this Order, “Liaison Counsel” shall mean the persons appointed in Pretrial Orders Nos. 6 and 10, and any successors thereto, as well as counsel for any State that is a party to this action.

5. The United States may dispose of the Samples identified on Exhibit A to this Order. This Order does not preclude any Party from challenging the admissibility of any Sample, but does preclude any Party from seeking or obtaining sanctions for the United States’ disposal of the Samples identified on Exhibit A.

6. If the United States wishes to dispose of any Samples (other than those identified in Exhibit A), the United States shall provide Liaison Counsel with a written proposal to discard such Samples. The written notice shall be served 60 days before the intended disposal and shall identify the Samples, the date the Samples were taken, the location the Samples were taken, the nature of the Samples (whether of oil, water, air, fauna, flora, waste, etc.), the purpose for which the Samples were collected, the Sample Retention Date for each Sample, the reasons for the proposed disposal, and the date on which disposal is proposed to occur.

a. If, within 20 days of the service of the written notice, no Liaison Counsel has objected, requested additional information, or requested custody of the Samples identified for disposal or moved this Court for preservation of the Sample, the United States may dispose of the Sample on the proposed disposal date.

b. If, within 20 days of the service of the written notice, a Liaison Counsel identifies a party who requests preservation of the Samples or additional information, the United States and the requesting party shall meet and confer to determine the appropriate disposition of the sample. If the United States and the requesting party are unable to reach agreement, the United States may move the Court for an order governing the disposition of the Samples. The United States shall preserve the Samples until the parties reach agreement or the Court rules on any motion relating to the samples, whichever is later.

7. Nothing in this Order shall affect any other obligations of the United States to preserve Information in this action, including but not limited to the obligation to preserve all Information related to the collection, analysis, and preservation of samples.

New Orleans, Louisiana, this 25th day of February, 2011.

CARL J. BARBIER
UNITED STATES DISTRICT JUDGE
